SAHID JAMAL

Full Stack Developer

Mobile: +917985802706   Email: sahidjamal151@gmail.com   GitHub: github.com/Sahid-321   Portfolio: sahid-jamal-portfolio.netlify.app

LinkedIn: linkedin.com/in/sahid-jamal-2084b61a4

TECHNICAL SKILLS

Languages: JavaScript ES6+, Python, SQL, TypeScript

Frontend: React.js, React Native, Redux, HTML5, CSS3, Material UI, Chakra UI, Bootstrap

Backend: Node.js, Express.js, Fastify, REST APIs, GraphQL, Microservices Architecture

Databases: PostgreSQL, MongoDB, Redis (Caching), Database Optimization

Cloud & DevOps: AWS (EC2, S3, RDS), Firebase, Azure, CI/CD Pipelines, Docker

Tools: Git, Socket.IO, WebSockets, JWT, Video SDK, Payment APIs (Razorpay)

PROFESSIONAL EXPERIENCE

Senior Software Engineer   Timeasoft Pvt. Ltd.
December 2024 – Present

- Led cross-functional team of 8 developers to architect Quick Commerce platform processing 200+ daily orders
- Analyzed user behavior data and collaborated with product team to build 4 dashboards, reducing support tickets 40%
- Communicated technical requirements with stakeholders and deployed AWS infrastructure achieving 99.9% uptime
- Engineered WebSocket system through code reviews and team collaboration, handling 1,000+ concurrent connections
- Analyzed security vulnerabilities and implemented JWT RBAC, preventing 95% of unauthorized access attempts

Frontend Lead Developer   Muscle Class - Fitness & Bodybuilding App (Self-Employed)
September 2024 – December 2024

- Independently developed and launched fitness app with 500+ exercises, achieving 1,000+ downloads and 300+ active users
- Analyzed user engagement metrics and integrated GIF demonstrations, improving retention 25% through data-driven decisions
- Collaborated with fitness trainers and published to Google Play Store with 4.2-star rating
- Solved performance bottlenecks by optimizing AsyncStorage, cutting app launch time from 3.2s to 0.8s
- Researched user behavior patterns and implemented progressive loading, reducing API calls 65%

Technical Lead   Venturesathi Global Solutions
June 2023 – September 2024

- Led development team of 5 engineers to build social media platform serving 2,500+ users, boosting engagement 15%
- Collaborated with product managers to deliver enterprise LMS for 500+ learners with 95% client satisfaction
- Analyzed database performance bottlenecks and architected PostgreSQL schema for Finance ERP across 4 microservices
- Mentored junior developers and optimized queries through team code reviews, reducing response times 75%
- Coordinated with DevOps team to establish CI/CD pipeline, cutting deployment time from 45 minutes to 8 minutes
- Communicated security requirements with stakeholders, achieving zero unauthorized access incidents
- Analyzed system metrics and led team to scale architecture supporting 300% user growth

React Native Developer (Contract)   Myulogic Solutions
February 2023 – June 2023

- Collaborated with astrology experts to build consultation app connecting 800+ users with 50+ astrologers
- Analyzed video call performance metrics and integrated Agora SDK achieving 99.2% connection success rate
- Led technical discussions with client team to build Socket.IO chat system processing 10,000+ daily messages
- Communicated with payment partners and implemented secure gateway handling $15,000+ monthly transactions
- Solved cross-platform compatibility issues through systematic testing across 15+ device types

EDUCATION

Bachelor of Technology in Computer Science
IK Gujral Punjab Technical University │ August 2018 – May 2022

12th (Intermediate)
Life Line Inter College │ February 2016 – May 2018

TRAINING & CERTIFICATIONS

Full Stack Web Development
Masai School │ May 2022 – February 2023

Data Structures & Algorithms
Masai School

KEY ACHIEVEMENTS

- Led cross-functional teams reducing application load times 75% through collaborative optimization strategies
- Mentored 5+ junior developers while scaling platforms to support 300% user growth
- Communicated with stakeholders to achieve 4.2-star app rating with 1,000+ downloads
- Coordinated security audits preventing 100% of breaches through team-based authentication systems
- Collaborated with product teams to deploy applications across Google Play Store and AWS infrastructure
